

Atlas Weyhausen is at Agritechnica

Atlas Weyhausen will be showing three weycor wheel loaders with agricultural attachments at the Agritechnica 2023 trade fair in Hanover. The stand is located in Hall 6, the stand number is D37.

In addition to an AR 380 with a bale fork, the AR 480 equipped with a manure fork with a hydraulic hold-down device will be on display.

The exhibition programme is rounded off by the AR 660, a wheel loader equipped with wide agricultural tyres and a fold-out 6-metre wide green fork. All other weycor equipment will be medially represented on the stand.

In addition to the well-known weycor highlights, the available options for agriculture include the extended lifting device, the 40 km/h high-speed option, Euro coupling for the AR 400 - AR 530 models, 4th hydraulic section at the rear or front, as well as the equipment with air conditioning and wide agricultural tyres. From the AR 550 model onwards, the fan reversal function is also offered.

The trade fair will open its doors from 12.11. to 18.11.2023.
